EDUCATION

Bachelor of Science, Computer Science

- **Babeș-Bolyai University** of Cluj-Napoca, Romania
- **Oct 2025 – Present** | Expected Graduation Jul 2028
- **Courses:** Object-Oriented Programming | Operating Systems | Computer System Architecture | Databases | Computer Networks | Software Engineering | Artificial Intelligence

PROJECTS

Document Copilot

- Developed a **full-stack AI research assistant** that enables financial analysts to query SEC filings in natural language and receive streamed answers grounded in cited source passages.
- Implemented **hybrid document retrieval** by combining semantic search with pgvector and PostgreSQL full-text search, using FastAPI, Supabase, and OpenAI to generate and validate evidence-based responses.
- Built a React and TypeScript chat interface with user authentication, conversation history, document citations, and source previews, and **deployed the application using Railway and Supabase**.

ParcelFlow [\(GitHub\)](#)

- Developed a **desktop parcel-delivery management application** with parcel tracking, persistent customer and delivery data, status history, input validation, and multiple synchronized GUI views.
- Implemented automatic agent assignment based on street coverage, delivery radius, and nearest-agent selection, supported by database transactions and **8 automated integration tests**.

Pygame Snake [\(GitHub\)](#)

- Built a **configurable Snake game** featuring dynamic board and apple settings, progressive difficulty, keyboard controls, and pause, restart, game-over, and victory states.
- Separated the application into **domain, game-service, and UI layers**, with 15 automated tests covering movement, growth, collision detection, apple placement, validation, and speed progression.

Fitness Content Creation [\(TikTok\)](#)

- Created and edited **50+ short-form videos** over 2 years, combining advanced bodyweight exercise showcases with accessible fitness and nutrition advice.
- Grew the account to over 500 followers, with the top-performing video surpassing 5,000 views, while developing skills in **video editing, branding, and audience engagement**.

SKILLS

- **Languages:** Python | C++ | TypeScript | SQL
- **Frameworks & Technologies:** React | FastAPI | Qt 6 | Pygame | Supabase | PostgreSQL | SQLite | pgvector | OpenAI API | Git

ACHIEVEMENTS

- Cloudflight Coding Contest - School Edition, Cluj-Napoca | **2nd place** (Apr 2024)
- Cloudflight Coding Contest - School Edition | **7th place worldwide** (Mar 2024)
- **Multiple honourable mentions** at county stage of the Romanian Informatics Olympiad
